MERIDIAN PRACTICE

To whom it may concern,

We acknowledge MedicumSearch is a reliable partner. We have been working with Mr. Tom Johnson for last 6 years and have been delighted with the level of services we have received. MedicumSearch has been supporting us to find the best candidates, conducting initial interviews, organising candidate visits in our practice, running reference checks and much more. We could never have done it by ourselves.

Most of the doctors that have been recruited by MedicumSearch are still working for us, but we are still working with MedicumSearch on expanding our practise.

Sincerely,

Dr Jacqueline Applebee
